

Resin Polish Range

Marine 16's Resin Polish Treatment protects against UV and atmospheric pollution. Keeps and prevents fading and effects of acid rain, salt, ice and sun. Makes dirt and grime easy to rinse and wipe away. Marine 16's Resin Polish comes in different pack sizes to suit boat type and size or is sold individually for additional annual protection. Please order Kit that suits your craft

Resin Polish Wash & Wax Shampoo

For additional annual protection used as directed Resin Polish Wash & Wax Shampoo will remove all dirt on all surfaces prior to treatment with the Resin Polish Kit. It may also be used with pressure jets for a superior clean.

Resin Polish Preparation

Resin Polish Preparation is a non silicon based fine duty polishing compound and cleaner, ideal for preparation of paintwork before final finishing. It ensures that all dirt is removed and is easily applied by hand or buffer. Used for finishing all paint surfaces prior to application of Resin Polish Sealant.

Professional Paint Sealant

Resin Polish Sealant bites into the surface of the GRP or paint finish and creates a surface shield preventing practically any form of pollutant from penetrating the sealed surface, thus giving the base material total protection from acid rain, snow, salt, industrial fallout, oxidisation and colour fading and also the sun's ultra violet rays. Resin Polish Sealant is not a polish or a wax but actually bonds to the surface and creates a brilliant, high gloss protective barrier leaving dirt and pollutants resting on the glazed surface. A quick wash will maintain the treated surface leaving it looking pristine. Resin Polish Sealant is a long-term protection for all paint and GRP surfaces.

Microfibre Cloth

A very soft Microfibre cleaning cloth, especially for polishing delicate surfaces. Used dry this cloth will absorb and retain all loose dirt and dust particles utilizing anti-static properties. The anti-static properties of the cloth make it the most effective way of collecting dust and dirt particles. Machine washable up to 200 times.
